rim Shorri and the romance of the tenements goes on to a happy ending, after an entirely unexpected twist is given to events by the sudden appearance, upon the scene, of the little girl's immensely wealthy grandfather. Left to choose between society and the slums; between an English fop and her newsboy for a husband, the little girl does the entire thing—wins and consistent thing—she marries the choice of her heart and remains a "jewel" in pawn to Dan Cupid instead of the kindly old Jew who has so kindly nurtured his most precious pledge.

LEUT. HARVEY OF MACLEOD WINS VICTORIA CROSS FOR CAPTURING A MACHINE GUN

Lieut. Frederick M. W. Harvey, one of the four Canadians who have recently won the Victoria Cross, the greatest honor that any soldier can receive, comes from Macleod, Alberta. He went overseas with the 13th Mounted Rifles and when that unit was broken up on the other side, was attached to the famous Strathcona Horse.

Lieut. Harvey enlisted as a private and worked up through the successive grades until he earned his commission just before the regiment went away. Before enlisting he was a farmer in the Standoff district, south of Macleod. He is a son-in-law of Robert Patterson, the former M.P.P. for the constituency, who was defeated at the recent election. Lieut. Harvey was born in Ireland, that land of gallant fighters, and was reputed to be the best boxer and the best wrestler in the regiment. He is a fine, tall chap, absolutely fearless, and a born leader of men. It is predicted that still further honors are in store for him in the military line, before the war ends. The story of the achievement which earned him the Cross has already been printed. The official version is as follows:

Lieut. Frederick Maurice Watson Harvey: "For most conspicuous bravery and devotion to duty. During an attack by his regiment on a village a party of the enemy ran forward to a wire trench just in front of the village and opened a rapid rifle and machine gun fire at very close range, causing heavy casualties in the leading troops. At this critical moment, when the enemy showed no intention whatever of retreating and the fire was still intense, Lieut. Harvey, who was in command of the leading troop, ran forward well ahead of his men, dashed at the trench, which was still fully manned, jumped the wire, shot the machine gunner and captured the gun. His most courageous act, undoubtedly, had a decisive effect on the success of the operation."

In announcing the award of the Victoria Cross to the four Canadians, the official gazette described the acts resulting in the honor awarded another western man as follows:

45755 Pte. Wm. Johnstone Milne, of a Manitoba regiment (enlisted at Moose Jaw, his people belong to Cambristown, Scotland): "For most conspicuous bravery and devotion to duty. During an attack, on approaching the first objective, Private Milne observed an enemy machine gun firing on our advanced troops. Crawling on his hands and knees he succeeded in reaching the gun and killed the crew with bombs, capturing the gun."

"On the line re-forming he located a machine gun and stalking this second gun as he had done the first, he succeeded in putting the crew out of action also, and capturing the gun. His wonderful bravery and resource on these two occasions undoubtedly saved the lives of many of his comrades. Private Milne was killed shortly after capturing the second gun."

**MUSICAL SERVICE IN
McDOUGALL CHURCH**

Fine Program by Choir—Sings by Miss Armstrong and Miss Reed.

The musical service held last night at McDougall church was a rare treat. The choir, under the able leadership of E. M. Shildrick, acquitted itself with great credit and to the church. The high standard reached last night was a fitting culmination to a painstaking and hard winter's work.

The singers were especially happy in two unaccompanied numbers, Gounod's "Come Unto Him," which was sung with a beautiful and delicate six parts. The other number was Wagner's "Make Us Strong," which was rendered with striking freedom and verve.

A trio for female voices by Abt. was excellently given by Misses Reed, Armstrong and Clutterham. A feature of the program was the fine solo singing of Miss Miriam Armstrong and Miss Edna Reed. The former was heard to advantage in "Inflammation" from Rossini's "Stabat Mater," whilst the latter sang with effect the soprano solo in "O for the Wings of a Dove" from Mendelssohn's "Heavenly Music."

Too much praise cannot be given to Mr. Arthur Putland, first for his two beautiful songs, "The Rose Tree" and "Spring Song," and for his "Finlandia" and next for his masterly accompaniments. Mr. Putland has just returned from a trip to the east coast of Canada, where he was in charge of the series of fine organ recitals for the coming season. W. J. Green, secretary of the Y. M. C. A., had charge of the service.

**ENTERTAINMENT AT
CONVALESCENT HOME**

A great deal of interest is being taken in the coming entertainment at the Military Convalescent Home (Alberta College South) to be given Tuesday evening. The musical numbers are in the hands of the Rotary club and the Master Cecil and little Miss Floie Martin will contribute costume dances and character songs. "After the Honeymoon," the comedy which was such a success at the both the hospital and the Veterans' association entertainments, will be repeated by the same cast, viz: Miss Helen Gorman, Miss Etta Manuel, Miss Minnie Conway, Pte. Tonten, and Anthony Gorman. The pretty fantasy, presented by Mrs. Ethel Reese Burns at the Empire in January, will be repeated by the same cast, viz: Miss Etta Manuel, Miss Minnie Conway, Pte. Tonten, and Anthony Gorman. The pretty fantasy, presented by Mrs. Ethel Reese Burns at the Empire in January, will be repeated by the same cast, viz: Miss Etta Manuel, Miss Minnie Conway, Pte. LEUT. CHISAM ON NIGHT PATROL DUTY

Has Recovered From The Effects Of Smash-Up In France.

Flight Lieut. Harry Chisam, who, before completing his course in aviation at Atlanta, and enlisting some eighteen months ago, was clerk of the police court in Edmonton.

Flight Lieut. Chisam, after doing night patrol duty at three coastal depots in England, was transferred at his own request to the bombing section in France. In France he was again transferred to a fighting squadron, taking part in the big air fights which occurred in the Arras section.

In this section Harry was unfortunate enough to meet with a collision bringing his machine down with a "crash," but, escaped himself with a good shaking up. He was transferred back to England after the crash to recuperate, and is now again flying at one of the coastal depots in England.

Flight Lieut. Chisam would like to hear from some of his old acquaintances in town, and requests them to write him care of Chisam's Hotel, Carlisle, Eng.

REV. DR. HUESTIS

RICE ST. MARKET ON GOOD BASIS

Saturday's Trade Was Large and There Were Some Fine Displays

Edmonton's Saturday market trade is now on a solid basis and the consumers can walk now between a double row of producers ranged on either side of the walk that leads through the brick buildings, through the shed at the rear and along the cinder path right back to the next street at the rear.

All sorts of produce are offered from the staple products of the dairy and poultry departments of the farms to the variegated displays of the market gardens and greenhouses in and around the city. Meat, fish and vegetables are among the food products offered at prices profitable to both producers and consumers.

The professional gardeners also offer some fine specimens of plants, either for transplanting into the gardens, either for decorating the home or for growing food for home consumption. Among the rare plants offered were noted some fine specimens of strawberry plants which sold readily.

The general trading was quite satisfactory to all and lasted well on into the afternoon. In some cases where the advance of the season is increasing or decreasing the supply the prices were affected accordingly.

"SPORTSMEN" IN FRANCE

Word has been received in the city that the Edmonton Battalion, commanded by Col. P. E. Bowen, has been sent to France. It is thought from letters received in the city that the men are now near the firing line, if not already there.

It is understood that the officers of the Battalion have not yet crossed, but some of them will undoubtedly be in the trenches shortly.

GRAIN AND COAL REGULATIONS

OTTAWA, June 9.—It is likely that in parliament on Monday Sir George Foster will announce the appointment of a commission of regulating and conducting marketing of grain. An announcement may also be made affecting the fuel situation. Orders in council affecting the two matters were passed this morning but no details will be known until the governor general's signature has been appended.

MCGILL'S CHANCELLOR DEAD

MONTREAL, June 10.—Sir William Christopher MacDonald, chancellor of McGill University, director of the Bank of Montreal and the Royal Trust company, and creator and head of the MacDonald Tobacco company, died Saturday. During the last six months he had kept to his bed.

LT. H. N. WALKER OF EDMONTON HAS BEEN KILLED

Was Son of Newton Walker And Attached To A Machine Gun Corps.

Newton Walker, of 10817 83rd avenue, has had word from the British war office, that his son, Lieut. H. N. Walker, was killed in action on June 6th. Lieut. Walker left here with the 101st Battalion in the fall of 1914 and in England, transferred to the Imperial army, where he was granted a commission of second lieutenant, afterwards being promoted to be first lieutenant. He was in the machine gun corps of the 107th Brigade when killed.

Second Lieut. Henry Cope Evans, D.S.O., is reported killed. He came from England to Ontario to engage in fruit farming some years ago. He served in South Africa with the Canadian artillery, and afterward engaged in ranching in the Macleod district, South Alberta. He joined the Alberta Dragoons in the first Canadian contingent, coming to England with it in the latter part of 1914. Lieut. Evans was a noted polo player, and was well known in the southern part of the province.

Word has been received in this city that Lieut. C. J. Abbott has been killed in action. He was employed in the C. N. R. shops here previous to joining. His home was at 1131st street and Columbia avenue and was a member of the 10th Alberta Dragoons.

Today's casualty list carries the names of a number of Alberta men, including a few from Edmonton. One of these is a confirmation of the report published in The Bulletin a few days ago, that Major H. B. Dawson had died of wounds. The Alberta list follows:

**WOULD LIKE TO GET
ASPHALT BLOCKS
IN NORTH COUNTRY**

Edmonton has thought and talked a great deal of the possible richness of the natural resources of the north country, but locally, although Edmontonians are ready to admit the possibility of many forms of natural wealth in that district, yet it must be left to the fertility of imagination after it has crossed the southern border to reveal something of the unlimited character.

The tar sands of the north country are familiar, but a vast extent of country, yielding asphalt blocks, ready for shipment, is something which the more ardent real estate booster might only dream.

"There was a proposition offered to the people of this town some time since of entering upon land north of Edmonton some hundreds of miles, and to build a fort, I forget the name, and consisting of asphalt blocks," says a resident of Walla Walla, Washington U.S.A. in a letter to an Edmonton financial institution. The writer asks to be put in touch with the people who were concerned with this land, and for full information concerning these blocks.

The letter has been turned over to Secretary Fisher of the Board of Trade, and he will reply to the effect that "asphalt even in the wonderful and unknown northland, is not usually found in blocks ready for paving purposes."

MAYOR HENRY ON JOB AGAIN

Mayor Henry was back on the job again at the City Hall on Saturday morning. He was granted three weeks holiday by the council for the period of the election. Ald. C. Wilson acting as Deputy Mayor in his absence.

**WOOL SHIPPED
BY RIVER BOAT
TO EDMONTON**

Industry is Being Rapidly Developed—Peace River Has Big Consignments

While the Alberta Provincial Sheep Breeders' Association is not receiving wool generally until after the Edmonton Exhibition, one or two shipments have already been received. One of these reached the city by steamboat, having been brought up the river from Shandao by the City of Edmonton.

The co-operative sale of wool, conducted by this association, is proving very popular, and already over 55,000 pounds have been promised, with new applications coming by every mail. The wool is being shipped from the north part of the province, one shipment of 125 fleeces coming from Peace River.

The shipments vary in size from five or ten fleeces from the smaller owners, to over eleven hundred fleeces from one member. Under the co-operative method of selling fostered by the Provincial and Dominion Governments the man with the few fleeces will get the same price as the man with several hundred sheep.

W. J. Stark, secretary of the Association, says that the members are going to get a splendid price for their wool this year. From private information received from the east, it is learned that the wool has sold there at a high price of sixty-four cents per pound. The Dominion Government has provided a warehouse at 1215 Simcoe St., Toronto, to which the Western Wool association may consign their wool for sale in case unsatisfactory bids are received from the buyers who come west. Mr. Stark, while recently in the east, inspected this warehouse and made himself thoroughly familiar with the method by which the wool will be handled and sold by a government representative, provided the market price cannot be obtained at home. The eastern manufacturers will not buy wool without seeing it first, and as comparatively few fleeces in this part of the Dominion have in the past found it difficult to get the full market value of their clip, it is the intention of course, of the association to ask for tenders for the wool, the same as in the past, and if a satisfactory price can be obtained the wool will be sold in Edmonton.

BALLOT CASES UP IN POLICE COURT

Magistrate Barclay Hears Two Applications and Orders Votes to be Counted

Two cases of disputed ballots were brought before Magistrate Barclay in the police court Saturday morning and in each case the magistrate ordered the ballots be counted.

Two fines of \$10 and costs each were registered against E. T. Palmer, on charges of being drunk while in charge of an auto and failing to return to the scene of an accident. In view of the fact that the accused had served two and a half years at the firing line in France the magistrate said he would deal leniently with the case. Palmer ran into a mail wagon, breaking one of the wheels.

J. W. Pidgeon, who was charged with a breach of the motor vehicle act by running into and smashing a boy's cart, settled by paying the costs of the court and making restitution for the cart.

A wage case between C. W. Woods, the defendant and Geo. W. Brunstetter, claimed wages on a contract and the defendant claimed that he did not finish his contract. The prosecutor was hired by Woods to do farm work.

T. P. Hall and G. E. Cummings were discharged on breaches of the motor vehicle act.

MASON & RISCH

FACTORY AND HEAD OFFICE, TORONTO, ONT.

Mason & Risch have been in the Piano Makers' business so long that it is only a fact to say that today the Mason & Risch name is the best-known piano name in Canada.

But LENGTH of service is secondary to STRENGTH of service, and it is not years alone that have given us supremacy, but the fact that during all our years of growth we have consistently elevated the business we are engaged in, and thus the Mason & Risch name is the best-known name PRIMARILY BECAUSE it signifies THE BEST-KNOWN PIANO.

If you are looking for the best made, and if you wish to buy a Mason & Risch Piano or Player-piano on a convenient payment plan, it will be arranged to meet with your requirements.

We have a bargain in a slightly used piano. Write, call, or phone.

REPORTS DIFFER AS TO LOSS OF LIFE CAUSED BY EARTHQUAKE

Dispatches State Much Damage Was Done to Property in Salvador, But Estimates of Lives Lost Vary.

Corinto, Nic., June 9.—Telegraph communication with San Salvador is still cut off and no authentic information is available here as to the loss of life and property caused by the earthquake and storm on Thursday night. Such advice as has been received indicates that great property loss was caused. It is reported that Santa Tecla has been destroyed and the surrounding countryside for thirty miles devastated. The city of San Salvador has been damaged badly according to a current report.

The earthquake occurred at 9 o'clock Thursday night. It was accompanied by a high wind and heavy rain.

Dispatches yesterday from San Juan del Sur said San Salvador, Santa Tecla and neighboring towns had been destroyed, but that the loss of life was small. Information was received from San Salvador that only 100 houses were left standing in San Salvador. A dispatch from Panama last night said reports reaching there indicated that hundreds of lives had been lost in San Salvador.

Damage Loss Modified.

New York, June 9.—Damage done by the earthquake to the city of San Salvador is not as great as reported, according to a dispatch received here. The central and newer part of the city was said to have suffered less than the outlying portions and the suburbs.

Austrians Driven Back

ROME, June 10.—The war office statement of Saturday reads: "In the Carpathian area west night the enemy after heavy bombardment attacked our positions on the Vodic and those between Sabar and Vertolba south of Mount St. Marco, but he was immediately driven back with losses, leaving prisoners in our hands."

"An intense artillery fire began yesterday afternoon against our positions between Salsano and Castagnavola was supported by our batteries. On the Carso there also were brisk artillery actions."

"The activity was normal on the remainder of the week."

Russian Scouting Raids

PETROGRAD, June 10.—"In the Carpathian northwest of Raskolovka two Russian scouting parties surprised the Austrians, driving them from their trenches," says Saturday's official announcement. "Eleven men were captured and others were bagged. On the remainder of the front there was rifle firing."

"A German airplane was brought down in flames in the region of Kosov. Its occupants were killed."

British Losses at Mesinice

LONDON, June 10.—Referring to exaggerated German statements in regard to the number of British casualties in the battle of Mesinice ridge, Reuters' correspondent at British headquarters in France says that up to Friday evening the number of men of all ranks who failed to respond to roll call on the British side was just about 10,000. Judging from past experience, about 40 per cent of these are men wounded, so lightly that they are able to walk and of the remainder a number will be able to rejoin their regiments later.

King's Congratulations

LONDON, June 9.—It was officially announced today that King George has sent to Field Marshal Haig, commander-in-chief of the British forces in France and Belgium, the following message:

"We rejoice that, thanks to the thorough preparation and splendid cooperation of all arms, the important features of the battle of Mesinice ridge, which has been the scene of so many memorable struggles, again is in our hands."

"Tell General Plummer and the second army how proud we are of their achievement, by which, in a few hours the enemy was driven out of strongly entrenched positions which had been held by him for two and one-half years."

(Signed) "GEORGE R. I."

Russ Girls Corps

PETROGRAD, via London, June 9. Two hundred girl students of the Petrograd Technical Institute have entered their names on the rolls of a female regiment which is being raised to engage Butchkeroff. The regiment is immediately to start on the front and to fight in all respects under the same conditions as men.

LILAC AND THORN BLOOM AND CANADA'S SOLDIER LADS PLAY ON VERGE OF WAR SWEEP AREA

French Journalist Describes Baseball As a "Barbaric and Furious Sport," But Admits That "Hockey, Lacrosse, Football and Baseball Went To The Making Of The Character Of The Men Who Fought With Grim Resolution."

By Canadian Overseas Correspondent

CANADIAN ARMY HEADQUARTERS, June 10.—It is the purpose of the Canadian press to spend its money recklessly, at the rate of eight cents per word, trying to convey to the people back home the story of the brothers who are enduring and with what fortitude they are holding the line.

On Vimy Ridge yesterday, it the blazing heat, the gunners served their howitzers in a garb that would have shocked any morality department. They must have been described in the society column as "full decolette," except that they were abored with good will and shelled every important point for miles behind the German lines with heavy stuff. Great projectiles were passing high overhead, carrying their burden of destruction and death.

Closest, but still fortunately not too near, was the hiss of incoming enemy shells directed against our batteries. The dull bang of the explosion proved that they are wide of their mark.

In the Chalk Country

On the plain in front of us, about two miles at the most point away from all this racket, on the ridge may be seen, through the shimmering heat, the chalk indicating plainly, as it is drawn on a blackboard, the first trench, with similar lines showing the other trenches.

An army that operates in this region of chalk must either take the risk of living in very shallow trenches or of disclosing its whereabouts by digging into the chalk.

As we look the enemy, resentful over his section from some of his trenches, begins a concerted attack on the north end of the line. Chalk and brown surface earth shoot up in great columns as the shells burst here and there, amid the red-brown smoke of the high explosive shells is seen the grey gas.

Resolution to Stick It

Even at this distance it is plain that our front line is getting a proper drive, and that with intense interest, resolution on the part of thousands of men in the shell area to stick it out. But they do. The plain remains empty. One would imagine that the trenches on which the enemy's fire is directed, the trenches, the days of peace and joy back home a lay row on the Northwest Arm at Halifax, a run down the river at Lachine, a plunge into the lagoon at Indian Point or the cool, amiable depths of Stanley Park. They are young fellows out there who know such pleasures as part of their home life.

Fifteen minutes after witnessing the tremendous drama of this modern battlefield the correspondent came upon a playing green where there are still in bloom and where hundreds of young fellows, judging by their yells, hisses and obligations were engaged in the national pastime of killing the umpire.

The colour of the supply column explained that the war was a civil one between teams representing the headquarters and one of the divisions and that the score was 7 to 7, with two men out and two on base and that the dispute was over a foul. The game plain match the joyous abandon of a normal conclusion, the head quarters team being bound to win.

A distinguished French journalist after seeing the Canadians at play wrote to "Illustration" that baseball was "hockey, lacrosse, football and baseball went to the making of the character of men who out on the plain match the joyous abandon of sport, with the grim resolution of war."

The great news of the north, where the British are today making another drive, is watched with intense interest. The Canadians fought in the Ypres salient many weary months when the enemy's artillery far outnumbered theirs.

CREWS WON'T SAIL WITH THE BR. PACIFISTS

Great Demonstration In Trafalgar Square Hears of Action of Seamen's Union.

LONDON, June 10.—Members of the National Seamen's and Firemen's union have taken prisoner Frederick Macdonald, president of the Independent Labor party, and James Ramsey MacDonald, chairman of the Labor party, both members of parliament, who were about to sail for Petrograd.

An enormous demonstration was held this afternoon in Trafalgar Square to protest against permitting Mr. Macdonald and Mr. Jowett to proceed to Petrograd on account of their supposed pacifist leanings. The meeting was opened by the reading of the following telegram from Captain Jowett, of the Seamen's and Firemen's Union:

"I have Macdonald and Jowett prisoners. The crew refuses to sail with them."

The Trafalgar Square demonstration brought together great crowds. Joseph Havelock Wilson, president of the National Seamen's Union in the course of a speech said:

"This is no new question. I wrote 14 months ago a protest to the council of the Transport Federation against submarine barteries and warned the council that unless it protested against the U boat warfare my union would refuse to participate after the war in any conference including the Germans. The answer I received was that unless I was laughed to scorn and that the U boats were perfectly justified in acting as they did."

Mr. Wilson said that there were 2,000,000 organized men in Great Britain, and if Ramsey MacDonald was able to get half a million of those votes in his favor the union would immediately withdraw the boycott. If Macdonald could capture the British labor vote, he would be able to produce his credentials to represent British labor.

Several others spoke and a resolution was carried that the union deplores the decision to grant passports to pacifist delegates to the Socialist conference at Petrograd and endorses the action of the Seamen's union in refusing to work on ships on which such delegates are passengers."

PRESIDENT MAKES PLAIN POSITION

(Continued from Page One)

iniquitous war issued forth, and power to him to impose order and discipline within the empire and its widespread dominion and influence outside of that empire. That this must be done in such fashion as to prevent any such undue thing from ever happening again.

"We are fighting for the liberty of the self-government and the undisturbed development of all peoples. Every feature of the settlement that concludes this war must be conceived and executed for that purpose. Wrongs must first be righted, and then adequate safeguards must be created to prevent their being committed again. We ought not to consider remedies merely because they have a brilliant cutting; they must be practical. Questions can be settled only by practical means. Phrases will not achieve the result. Effective readjustments will, and whatever readjustments are necessary must be made."

Principle Plain

"But they must follow a principle and that principle is plain. No people must be ruled under sovereignty under which they do not desire to live. No territory must change hands except for the purpose of securing for those who inhabit it a fair chance of peace and order. No indemnities must be insisted on except those that constitute payment for manifest wrongs done. No readjustments of power must be made except such as will tend to secure the future welfare of the world and the future welfare and happiness of its peoples."

"And then the free peoples of the world must be called to some common covenant; some genuine and practical co-operation that will in effect combine their force and secure peace and justice in the dealings of nations with one another. The brotherhood of man must no longer be a fair but empty phrase; it must be given a structure of force and reality. The nations must realize their common life and effect a partnership to secure that life against the aggressions of autocracy and self-pleasing power."

Stand Together and Win

"For these things we can afford to pour out blood and treasure. For these are the things we have always professed to desire, and unless we pour out blood and treasure now and succeed, we may never be able to unite or show conquering force again in the great cause of human liberty. The day has come to conquer or submit. If the forces of autocracy are divided we will overcome us. If we stand together victory is certain and the liberty which victory will secure. We can afford, then, to be generous, but we cannot afford to be weak or to be weak or to give any guarantee of justice and security."

OUR FIRST TASK IS TO BEAT THE ENEMY WARNS MINISTER

British Ambassador Addresses A Great Meeting In The Russian Capital.

PETROGRAD, June 10, via London.—Sir George Buchanan, the British ambassador, addressing a great meeting last night held under the auspices of the Russo-British society, said he had constantly tried to impress on former Emperor Nicholas that in the twentieth century an irresponsible autocracy was an anachronism which could not endure. Russia, the ambassador said, had captured the Bastille of autocracy by assault in a single week and must consolidate the new won freedom.

"If you would keep it," Sir George continued, "not only must you defend it against attacks of the enemy but also drive him from the national territory, in order that your brothers in those occupied provinces may enjoy the same measure of freedom as yourselves."

Additional Sport MONTREAL AND TORONTO TEAMS LOST ON SAT.

"Newy" Lalonde Scored Five Out of Twelve Goals For Montreal Nationals.

MONTREAL, June 10.—The Nationals, with "Newy" Lalonde playing with them, defeated the Montreal Shamrocks Saturday in a lacrosse game at the east end grounds here by 12 to 7. Lalonde took five of the dozen goals. The Frenchmen showed more aggressiveness than in any of their previous games this season. It was a case of speed with both teams, and while not a rough contest, there were numerous penalties. L'Heureux, for Nationals and Brennan for Shamrocks, did good work in goal. The game was practically won in the first quarter, when Shamrocks got only one out of five goals.

OTTAWA, June 10.—The Ottawas won their first game of the season in the National Lacrosse Union Saturday, defeating the Toronto Tecumsehs 6 to 4, after a hard fought match at the local grounds. Penalties followed thick and fast until, at one stage, there were five Tecumsehs and four Ottawas on the bench. Jacobs, of the Tecumsehs, got 20 minutes for talking back to referee Ralph and Shellen ten minutes for showing signs of brainstorm when he hurled the ball up into the grand stand.

TILLMAN FELLED THREE TIMES IN TEN ROUNDS

Charlie White of Chicago Was Easy Victor On Saturday Afternoon.

MINNEAPOLIS, Minn., June 10.—Charlie White, Chicago, had a clear margin over Johnny Tillman, Minneapolis, in a fast ten round bout here yesterday afternoon. Tillman was floored in the second, fifth and eighth rounds, the bell saving him twice. He fought gamely, however, and had White groggy at the end of the third. Tillman weighed 185 and White 135 1-2.

GOLF IS NOT AS EXPENSIVE AS THEATRE SEAT

The secretary-treasurer of one of the United States golf links made the discovery that golf is not an expensive game. This may help us forget past acts of folly, including an irresistible desire to purchase every new fangled and foolish looking club invented, to always play regardless of cost with the ball that would travel farthest, to wander boxes and dinners with those who could play as well as we thought we could.

Returning to the secretary-treasurer, who regards as fallacy the belief that golf is costly, he cites an illustration this way: "A theatre seat costs more than a green fee, measures only 23 feet, and is occupied only a couple of hours, while the golfer has the freedom of air, of over 100 acres of highly cultivated land for the entire day. All of which implies practically good value for a dollar's account were set up it would show a saving to the golfer on doctor bills, gas and oil for long motor trips, and other expenses incurred when not on the links. Notwithstanding club dues, green fees, caddy charge and other disbursements, with public and semi-public links now open, golf does not have to figure any more for a day's sport at golf than for any other form of outing or recreation."

TRY TO IMPROVE YOUR APPROACHES BY THIS METHOD

On the golf links one very often hears the disgruntled player complain of not being able to get up on his approaches or putts. A common ailment for which cures have been tried with doubtful success, although there is a remedy, comparatively new, that ought to help one and might to good advantage be tried out.

The form of competition in mind places a premium on being up. In other words, unless the contestant on his approach or approach putt is past the hole he receives a one stroke penalty. It has been estimated that nine out of ten of the masher shots and long putts stop shy of the cup. A circle seventy-five yards in diameter is drawn around the green, using the flag as the centre of the circle. Then one takes his masher and approaches five balls from various points about the circle. After approaching he uses the putter to hole out and, of course, the player taking the least number of strokes wins, provided he has always been past the hole. Fear of the penalty for being short is liable to transform one into something worth while.

RETURNED SOLDIERS PLAY TELEPHONE DEPT. TONIGHT

The returned soldiers' football team will play the men of the Alberta government telephone department on Diamond Park tonight and a red hot soccer match is assured. The telephone boys are good players and the soldiers are as good as a lot of can be found in Canada and are out for the other fellows' scalps. The following men will compose the soldiers' team: Pleasant, Adams, Jenkinson, Pringle, Munro, Hunter, Sonnen, Jones, Clarke, Fox and Butler. Referee will be the referee and the kick-off is scheduled for 7 o'clock.

BOOTES FIRST IN HANDICAP AT BELMONT

Winner of Thirty-Third Suburban Mile and a Quarter Feature Piloted By Loftus.

NEW YORK, June 10.—With the weather and track as if made to order a great crowd witnessed the thirty-third running of the historic suburban handicap at Belmont and a quarter over the Belmont Park race course today. A. K. McComber's 6-year-old gelding, Bootes, by Hessian-Little Flower, carrying 122 pounds and piloted by Jockey Loftus, was the winner, three-quarters of a length in front of H. P. Whitney's aged gelding, Borrow, which finished second, half a length ahead of the favorite, The Finn, owned by H. C. Hallebeck. The race was worth \$4,800 to the winner. Spur was fourth, Stromboli fifth, Ed Crump sixth, Chicklet seventh, and the lightly weighted pair, Dandy's Choice and Airman, were the tail ends.

GLOOMY TIME PREDICTED FOR ENGLISH SOCCER

The well-known football correspondent, "J. C." of the Sporting Chronicle of Great Britain, in an article of recent date foresees a very gloomy year future for old country soccer for many a day to come. That is, if the war continues. "J. C." in a forecast of the coming season goes on as follows:

Beyond mortal ken "Leagues may prepare schemes, and clubs may make plans, but the situation is beyond mortal ken. It is well to be prepared, but the playing of matches in the winter must become increasingly difficult if the war is not at an end ere harvest is reached. Men of strength and activity are required in so many directions that the problem becomes more acute. At present there are clubs which doubt the wisdom of continuation, and it is certain that if the Lancashire and Midland clubs were to withdraw, the system of sharing receipts will have to be introduced. One cannot shut his eyes to the question of manpower and financial resources as they affect football."

Scarcity of Players "It may be that lads under 18, with the assistance of skilled munition men and home service soldiers, may be able to continue teams, but even so, I fall to see how either individual players or club eleven can overcome in the future the present difficulties of long-distance travel with a comparatively short diameter. In my opinion it has been marvelous that the clubs have done so well. They have done great good for the country in several ways and if it is possible to carry on, depend upon it, all foot ball to be will bring ingenious mind to work and put their shoulders to the wheel."

Canadians in Trench Raid Capture About 150 Hun Prisoners

After Occupying Enemy's First Line and Supporting Trenches For Two Hours, in Which Time They Were Systematically Wrecked, Canadians Returned to Former Positions—Doubtful if Germans Will Again Be Able to Occupy Trenches.

Canadian Headquarters in France, June 9.—A trench raid upon a scale much larger than any hitherto undertaken by Canadian corps was most successfully carried out during the night in the neighborhood of the Souchez river.

After occupying the enemy's first line and supporting trenches for two hours, in which time they were systematically wrecked, our men returned before dawn this morning to their former positions.

The plan of operations excluded the holding of any of the ground occupied except some elements of trenches between the Bois de Blumont and Souchez river, attacked early in the evening. The desired ground here was obtained after a stiff fight. At this point the Souchez river had been damaged by the enemy with the object of providing a strong defensive flank. The Canadians attacking from the south of the river, after hand to hand encounters took the enemy's trenches immediately to the north. The troops to the north had a very stiff fight before they reached their objective, the enemy making full use of well-placed machine gun positions in the ruins of houses and pit-heads along the line of the advance. The cool determination of our men brought them victory and by 10 o'clock the enemy trenches were firmly held.

The raid took place an hour and a half later on a front extending for more than two miles south of the Souchez river. The artillery preparations were of a most thorough sort. The bombardment had lasted several days and must, in conjunction with the barrage applied before the assault, have caused the Germans most serious losses.

Barrage Awe-Inspiring. The barrage in the gathering gloom of night was awe-inspiring to beholders. The men who had to stand the horrors of the concentration of guns, both large and small, must have been terrified. They had reason to be. When our men, following the barrage as it lifted, entered the German trenches, they found dead in them. The survivors were too panic-stricken to fight and surrendered readily, but the machine gunners stuck to their posts as they almost always do, and fought to the death. The sound of their own and our machine guns, which is like that made by riveters erecting the steel framework of a skyscraper, could be heard distinctly amid the roar of the cannon. Despite the resistance organized around the German machine gun posts our men pushed on through La Coulotte and almost into the streets of Avion, a suburb of Lens. Great fires which were probably caused by the shelling lit up the countryside on the north of the line. Amid thick smoke which hung over the troops appeared from time to time many flares, the most conspicuous of all being the double red rocket which is the enemy's S.O.S. signal.

Health Inspector Graham has submitted a report on the question of the water supply at Virginia Park, and this goes to the public works committee for consideration. The residents of Virginia Park are asking the city to give them a regular supply.

BODY FOUND IN WELL. Springfield, Mo., June 9.—The body of Lloyd Keen, 14 months old, son of J. Holland Keen, wealthy banker, was found in a well on the Grenshaw farm near here today, according to reliable reports.

CANADIANS FORESTRY WORK. London, June 9.—The latest job tackled by the Canadian forestry battalions is the clearing of Kenley Commons, one of the most beautiful spaces in the Surrey side of London. Londoners journeying there by the huddersfield are noting with wonder the celerity with which the Canadians are clearing brushwood, trees and everything.

CARRY HIGH EXPLOSIVES.

With the Canadian Infantry into the German line went men carrying high explosives for use in the destruction of dugouts and trenches. The work of devastation went on simultaneously with the collecting of prisoners and our own wounded, who had to be carried out before the enemy's trenches were evacuated.

At the appointed time, with scarcely any molestation and safe from the German artillery, our men returned to their trenches, bringing with them several machine guns and prisoners. These latter had to walk over the plain in the gray dawn under the fire of their own guns and climb the Vimy Ridge before reaching the temporary internment cages. Vimy for them must have been an adequate answer to Berlin's lies about voluntary retirement on the western front.

Prisoners examined had heard nothing of the disaster of the Messines Ridge.

The prisoners counted this morning numbered 145.

Officers who have returned from the raid stated the enemy's trenches were so badly smashed that it is doubtful if he will be able to re-occupy them. These officers confirm the report of the heavy German losses.

CITY HALL NOTES

The attention of the commissioner is again being called to the danger from flooding that exists in the lane at the rear of the Shugerman block. The matter has been referred to Supt. Alton of the streets and scavenging dept. A special car has been fixed up by the street railway department for the handling of the one-man control system on main routes. At the invitation of the department this was tried out by the Mayor and aldermen on Friday afternoon.

ASSEMBLY FOR CONSCRIPTION MEN AND MONEY

Approval of Efforts "To Rouse Sluggards"—Report of Church Union Committee.

Montreal, June 9.—A resolution regarding conscription of men and wealth was introduced in the Presbyterian general assembly meeting in Eglise church this morning by Rev. Dr. Herdridge, Ottawa, and was passed amid much enthusiasm. It reads as follows:

"The assembly desires to express approval of the efforts being made to rouse sluggards among the youths of Canada to a sense of their duty and enroll those available in the army of Canada. It endorses a policy of selective conscription as applied to the wealth and talent of the country for the service of Canada at this time, when so much is at stake. All minor issues should be set aside in common enthusiasm to win the war."

Church Union Report. The commissioners also began consideration of the report of the church union committee. The church union committee, of which Sir R. A. Falconer, of Toronto University, is convener, reported that "in pursuance of the instructions of the last assembly it had proceeded to carry out the policy of the assembly by informing the sessions of the assembly by the action of the assembly favoring union with the Methodist and Congregational churches. A message was prepared and sent out to sessions. Desiring that the membership of the church should be made acquainted as widely as possible with the announcement, the committee instructed the convener to ask that it be inserted in the Record; but the editor, acting on the advice of his committee, refused the request on the ground that it was controversial matter. The executive union committee entered its dissent against such a position being taken by a committee of the church in regard to a communication to the union committee which was carrying out the policy of the assembly."

Question of Legislation. The committee intimated that it had nothing to report on the assembly's instructions "to act in co-operation with committees of the Methodist and Congregational churches in obtaining legal advice and in taking such steps as may be deemed proper to secure Dominion and provincial legislation conveying property to the United Church."

Concluding, the report states that it asked the boards of education, foreign missions, home missions, social service, Sunday schools to enter into co-operation with similar boards of the Methodist and Congregational churches. An addendum of the report gives an historical sketch of the co-operation movement composed of representatives of the three denominations which held a meeting in Toronto, January 3, 1917, and recommended that "until the organic union of the negotiating churches is consummated the principles of co-operation be applied:—1.—In the adjustment of overlapping in existing fields; 2.—In the arranging of religious work in absolutely new districts; 3.—In the work to be done amongst the foreign nationalities."

A suggested plan for the organization of affiliated local union churches is also included in the addendum.

First Clash on "Union" The sitting also saw the first clash on the floor of the assembly in the church union controversy. Sir Robert Falconer, K. C. M. G., president of Toronto university, as convener of the committee on church union, and Dr. Robert Campbell of Montreal, an anti-unionist, championed the opposing factors in verbal combat. Considerable feeling was shown by the members in applauding the statements of their respective champions. However, all later responded enthusiastically when Dr. Campbell proposed that the assembly compliment Sir Robert on his being honored with knighthood in the king's birthday honor list.

Sir Robert said the merits of the case were no longer debatable. It had been adopted after a prolonged discussion and with full realization of the danger of a cleavage. The policy of the assembly had been known to the other churches and it would be a breach of faith to revoke last year's decision. The Presbyterians were not changeable people. They would abide by their decisions. That was the attitude of the union committee and he hoped that it would be the attitude of the assembly.

American Wheat Crop 656,000,000 Bushels

WASHINGTON, June 9.—The prospective wheat crop of the United States this year was forecasted today by the department of agriculture at 656,000,000 bushels, combining a revised estimate of the badly damaged winter wheat crop and the first estimate of the new spring wheat crop, based on June 1 conditions. That compares with 640,000,000 bushels harvested last year and 806,000,000 bushels, the average crop for 1911-15.

Improved weather conditions during May increased prospects of winter wheat and indicated a crop of 313,000,000 bushels. The crop began this spring under adverse conditions, 12,437,000 acres having to be abandoned because of severe winter and other causes. April 1 conditions indicated a production of 480,000,000 bushels, but during that month growing conditions were so poor that the May 1 forecast was reduced to 386,116,000 bushels.

The increased spring wheat area, placed at 19,659,000 acres, and the good start of this crop under excellent growing conditions, indicate a production of 288,000,000 bushels compared with 188,143,000 bushels last year, 251,344,000 bushels in 1915, and 283,571,000 bushels the average for the previous five years.

Conditions of winter wheat by important states follows: Ohio 88; Indiana 69; Illinois 64; Missouri 64; Nebraska 60; Kansas 60; Oklahoma 69.

Condition of spring wheat by important states: Minnesota 93; North Dakota 88; South Dakota 95.

MORE CREDITS GIVEN TO MEET SUB WARFARE

French Premier Agrees to Creation of Department of Submarine Defense

Paris, June 9.—After a two-day session, during which Admiral La Case, minister of marine, and the conduct of the navy were under fire especially on account of merchant marine losses, the chamber of deputies voted last night confidence in the government by 510 to 178. The bulk of the attack in the closing session concerned alleged laxity of measures taken to combat submarines, including reproaches that the budget did not provide sufficiently for anti-submarine measures.

Premier Ribot, in defense of the government, declared that the submarine war had surprised the navies of all the allies. He did not deny the peril and asked for increased credits to meet this new form of warfare. "There is much to do," he said, "including the rejuvenation of the navy department's methods."

The premier agreed to the creation of a department of submarine defense. While the debate was proceeding in the chamber the senate unanimously adopted a bill revising the budget of the minister of the navy so as to cover more credits for anti-submarine activity.

MURDER ABETTER GUILTY

ST. PAUL, June 9.—Mike Moore, alleged go-between in the killing of Mrs. Anne Dunn, was found guilty of murder in the first degree by a jury today, which deliberated less than an hour. Moore was the first of several persons indicted, and it was claimed he arranged with Joe Rosenbaugh, confessed slayer of Mrs. Dunn, for the killing in the behalf of her husband, Frank J. Dunn. Dunn's trial is to come next.

Penetrate Enemy Line On Two Mile Front to Depth of Half a Mile

In Fresh Offensive British Are Again Successful, and Inflict Losses on the Germans—Enemy Make Powerful Counter Attack But All to No Purpose, British Guns Repelling These Deadly Effects.

London, June 9.—British attacked last night south of Souchez river and entered the German positions on a front of more than 2 miles, the war office announced. The German line was penetrated to a depth of more than half a mile. Heavy casualties were inflicted on the Germans.

The attack extended north of the river. The statement says operations were carried on with complete success on a wide front from south of Lens to La Bassée.

Prisoners and Material The statement adds: South of the Souchez river more than 70 prisoners and a number of machine guns were captured by us. Our own casualties were light.

The enemy trenches were also entered north of the Souchez river, south of Lens and southwest of La Bassée. Large numbers of Germans were killed and much damage was done to the enemy's defenses. A further 44 prisoners, including three officers and several machine guns, were taken by us.

The sector of Hindenburg line held by the enemy west of Bullecourt was raided by our troops last night and a number of the hostile garrison were killed and taken prisoners.

Enemy Attacks Repulsed The Germans made a powerful counter-attack last night over nearly

the whole length of the new line. They were repulsed completely. British retaking all the ground.

Paris, June 9.—The German four fruitless attacks on French positions along the Chemin-des-dunes last night, according to a statement issued by the French command today. The attacks were repulsed in quick succession north of Cerny.

German's Version. Amsterdam, June 9, via London.—A semi-official dispatch from Germany claiming that the English, Belgians, and the German casualties, say the English assault alone, had been arrested. Our front is absolutely firm. Strong reserves are being held. The fighting at Wytschaete can be regarded as the first episode of a general offensive expected great general offensive has passed in our favor.

Berlin, June 9, via London.—British were unable to obtain a advantage in the fresh fighting evening on the banks of the Comines Canal and on the Doudele, in Belgium, says the statement issued today by the German department.

From La Bassée canal to the brook, the statement adds, the activity increased, but the German positions were completely maintained.

HORSE BREEDERS ELECT OFFICERS

J. B. Millar of Edmonton Elected President and W. J. Stark is Secretary

At an enthusiastic annual meeting of the Alberta Provincial Horse Breeders' Association in the Council Chamber, officers were elected as follows: Honorary president, W. F. Stevens, provincial live stock commissioner; J. B. Millar, of Edmonton, president; Geo. H. Cresswell, vice-president; directors, R. O. Jackson, R. J. Manson, R. B. Hill, Walter N. Johnston, Chas. May, W. R. West, of Edmonton; and N. Bilborough of Leduc. W. J. Stark was elected secretary-treasurer. A number of matters of vital importance to the horse industry were dealt with, and it was decided to hold a sale of pure bred horses in connection with the next Edmonton spring show.

Under the Stallion Enrollment Act passed at the recent session of the local legislature, provision was made for a stallion enrollment board to consist of the Provincial Veterinarian and one member each from the Horse Breeders' Association with headquarters at Calgary, and from the Alberta Provincial Horse Breeders' Association, located at the Edmonton exhibition offices. W. J. Stark was named

by the Alberta Provincial Horse Breeders' Association to represent the organization on the Stallion Enrollment Board.

BALL ARTISTS IN EDMONTON BREAK RULE 30

Geo. R. Jackson Gives Good Advice To Junior Pitchers In Letter Today.

The following letter has been received by the sporting editor of The Bulletin. It is self-explanatory: Editor Bulletin: Dear Sir:—Now that the baseball season is on again, and after watching some of the juniors playing, I think it would not be at all out of place to publish the pitching rule on the sporting page with a short explanation of just what is prohibited, so that our boys may not make the same old mistake again and again. The following is the official rule: "Rule 30. Preliminary to pitching, the pitcher shall take his position facing the batsman with both feet squarely on the ground and in front of the pitcher's plate, and in the act of delivering the ball to the bat he must keep one foot in contact with the pitcher's plate. He shall not raise either foot until in the act of delivering the ball to the bat, nor make more than one step in such delivery." "spalding's simplified rule: "Before pitching the ball the pitcher must face the batsman with both feet squarely on the ground and in front of the pitcher's plate. When the ball is delivered the pitcher must be in contact with the pitcher's plate. Not more than one step must be taken in the act of delivery." This clearly prohibits what is the general practice among junior players, namely, the standing with the right foot behind the pitcher's plate, and in the act of pitching, first stepping into the box with the right foot and then taking a step forward with the left foot as the ball is released. This, of course, is a violation of the rule in two ways, first because the pitcher is not standing with both feet in front of the pitcher's plate, and second, because in the act of pitching he takes more than one step. Trusting that you will see fit to publish this rule and explanation in the interests of the game. GEO. R. JACKSON, Physical Director of Y. M. C. A.

ECZEMA ON FACE

Was So Bad Had to Stay in House.

All skin diseases such as eczema or it rheum, itching or burning rashes, eruptions, ulcers, boils, pimples, etc., are all caused by bad blood, and while not usually attended with any fatal results, may sooner or later develop into one serious blood trouble, and the entire system become affected. Burdock Blood Bitters, that old and well-known remedy, will cleanse the blood of all its impurities, and by this means cure all skin diseases and other blood troubles. Mrs. Ernest Andrews, Hamilton, Ont., writes: "My face was covered with eczema and was so terribly bad that I had to stay in the house. I had ten different doctors but got no tired of their treatment that I went and bought a bottle of Burdock Blood Bitters, and it helped me, so I kept on taking it. Now I am cured, and have lovely skin." "People who used to see me when I was so bad and see me now will not believe it, but I always tell them that thing cured me but Burdock Blood Bitters." THE SHOWER—

Sporting Facts and Fancies

When Ty Cobb showed up in New York recently for his first home game before the fans there this season, he found out that these well known baseball enthusiasts have a long memory. Cobb's attention was several times called in no uncertain fashion to the rumpus he had with Charlie Horng and the Giants during the spring training trip. He will take a long time to get over what he heard, and he will perhaps have learned that fans are loyal to their team, come what may.

The weather has certainly played havoc with the baseball schedule this year. Up to a very short time ago Richmond was the only city in the major and minor leagues that had not had a game postponed on account of rain.

Ladies and Gentlemen: Your attention is invited for an inspection of Nick Cutler, the well known Yankee back stop. It's a curious kind of ball that gets by Nick these days and it looks as though that eminent gentleman were out for a record.

There is considerable pep in the Toronto team of the International League. Up to a very short time ago Richmond was the only city in the major and minor leagues that had not had a game postponed on account of rain.

As for the Montreal team of the same league, lack of organization and an inability to connect with the ball at the proper moment seems to be the reason for its standing. There's good material in the make-up of the team. All that is necessary is to bring it out. After these few words, let's see what Montreal can do.

Over in Australia they believe they have found another Lee Darcy in Tommy Uren, the new middleweight champion, who recently defeated Jimmy Clabby and Eddie McGorty. However, our Australian cousins should not be too optimistic about Uren just because he beat these two boxers. Everybody knows that Clabby as well as McGorty are more or less back numbers and were fast descending the ladder even when Darcy beat them. One doesn't like to speak ill of the departed, but the suspicion is rapidly growing that Darcy would not have lasted very long if he had been permitted to meet some of the foremost ring artists in America with whom he anxiously sought bouts.

Racooners are having their troubles these days, particularly those who like to do a little betting on the horses. Did you ever see a raccoon who didn't like to bet? Well, anyway, here's what they are up against in many states where the horse may run but wagers are forbidden, except when they are made orally. This kind of bet is permitted, for instance, in New York. But the trouble is that these wagers cannot be settled inside the track enclosure. So the raccoons are asking themselves why it is that if an oral bet is legal it isn't legal to pay it? And on the other hand, if an oral bet is legal why is a cash bet illegal? Of course, nobody can answer such questions, especially not those in authority. It would seem that a bet is a bet, whether it is made verbally, in cash or by promissory note or what not. If betting is permitted, let it be done openly. If not, then let the law be enforced. That seems only reasonable.

Otto Knabe, former manager of the Baltimore Federal League team, and prior to that star catcher of the Philadelphia Athletics, will celebrate his thirty-second birthday tomorrow. He was born in Garfield, Pa., and started playing professional ball in the Western League with Colorado Springs and Pueblo in 1905. He then went to the Pirates but was turned over to the Toledo team of the American Association. After a season with this club he returned to Pittsburgh, but was immediately exchanged for Camnitz of Philadelphia. When the Federal League was organized he was made manager of the Baltimore club.

1901—Austin Rice defeated Tommy Foltz in 20 rounds at New Britain, Conn. This bout was declared to involve the bantamweight championship which had been in dispute since 1898. Rice was never recognized as champion. This honor went to Harry Harris, who defeated Peadar Palmer in England a short time before.

1905—Stanley Ketchel knocked out Kid Beor in 5 rounds at Butte, Mont.

1909—Ad Wolgast knocked out Teddy Peppers in ten rounds at Kansas City.

1910—Young Joseph, English welterweight, defeated Arthur Evernden in six rounds at London.

1913—Kid Williams knocked out Jim Kendrick in six rounds at Baltimore.

AMERICAN LEAGUE AVERAGES NOW SHOW THAT TY COBB HAS NOT FORGOTTEN HOW TO BAT

Has Jumped From Seventh To Third Place With Rating of .335—He Made 30 Points In Last Seven Games By 5 Hits, 2 Triples, a Double and Pair of Singles.

CHICAGO, June 9.—Ty Cobb is back in his old-time batting form according to earned runs per game, the celebrated Georgian, according to unofficial averages released yesterday. Cobb has jumped from seventh to third place in the list of American League batters. His average is .335. Trip Speaker is out in front of him with .333. Cobb piled up 30 points in his last seven games, getting five hits—two triples, a double and a pair of singles—in one contest. He has driven out 32 hits in 43 games. Chapman of Cleveland increased his lead as the premier sacrifice hitter and base stealer, having thirty sacrifice hits to his credit and 15 thefts. Roth, also of Cleveland, is pressing him with 14 stolen bases.

Adventures of Uncle Wiggily

By Howard R. Garis

Uncle Wiggily and the Bat

Copyright, 1917, by McClure Newspaper Syndicate.

Sue Little, the little rabbit girl with the long ears, the mouse, and the chipmunk were playing on the grass one evening, out in front of the tent of Uncle Wiggily Longears, the soldier gentleman.

"That's it," cried Sue Little, as she touched Sue.

The little rabbit girl started to run after Sue Little, the mouse, when all of a sudden, there was a scream from Sue.

"Oh!" she cried. "Oh, dear! Look out!"

"What's the matter?" cried Uncle Wiggily, running out of his tent, where he had been loading his talcum powder pop gun with baked beans, ready for the enemy mosquitoes in case they flew at him. "What's the matter, Sue?"

"Oh, a great big black bat just flew over my head!" said Sue Little, putting her paw on her nose.

"Well, what of it?" asked the rabbit gentleman. "A bat won't hurt you."

"Oh, yes, it will," cried Sue Little, and the other little animal girls stopped playing tag. "If a bat gets caught in your hair he can't get his claws loose, and he'll make you bald-headed. I don't want to lose all my hair!"

"Ha! Ha!" laughed Uncle Wiggily. "That's all nonsense! It is true a bat has claws like claws or fingers, on the ends of his wings, and they might catch in your hair if they got too near you. But the bat would not mean to do it, and he would be as sorry as you if that happened."

Just then the bat flew down close to hear the nice things Uncle Wiggily was saying about him, and Sue and the other animal girls screamed again.

"What is it?" asked Sammie Little, the rabbit soldier boy brother of Sue, as he hopped past.

"A bat!" she told him.

"Then Sammie yelled:

"Bat, Bat! Come under my hat, I'll give you a slice of bacon. And when I bake, I'll give you a cake. If I am not mistaken!"

With that Sammie tossed his cap up in the air, as near as he could to the bat, but Uncle Wiggily said:

"Please don't do that, Sammie. The bat might hit your cap, and hurt his wings so he couldn't fly. You don't want to hurt the bat, do you?"

"I don't know," answered the rabbit boy, uncertain like. "Bats aren't any good!"

"Oh, yes, they are some good," said Uncle Wiggily. "Just at this precise moment I forgot what good they really do, but I know it is some. Anyhow, don't hurt them, and don't be afraid of them. A bat is at least the kind that live around here, is more afraid of you than you are of him."

"Thank you, Uncle Wiggily," said the bat as it fitted about in the dark, for they can see when it is black, as well as a cat. "Thank you for telling the truth about me. I hope some day I may be able to do you a favor."

"Oh, don't mention it," said the bunny uncle, confused like. Then he told the animal children to run in their homes, for it was nearly bedtime, while Uncle Wiggily himself tied his tall silk hat from above his ears and went out on guard in front of his soldier tent, near his hollow stump bungalow.

"I hope the mosquitoes will not bother me tonight," said the bunny rabbit gentleman to himself. "They have made trouble enough for me."

So he marched up and down, like a soldier, for this was war time, and he listened for mosquitoes.

But the bad-biting bugs from the dark, dismal swamp did not seem to be out that night. Maybe they had had enough of being shot at when they hid in the tin can, as I told you last night. Anyhow they did not.

No, hold on a minute, if you please. I am wrong! The mosquitoes are out, and they are coming as fast as they can toward Uncle Wiggily.

"We must make one more try to catch them!" buzzed the head biter bug. "This time we shall surely catch him with us. Be brave now, my fierce friends! Get ready to charge at that enemy rabbit man!"

But Uncle Wiggily was awake and ready to shoot off his talcum powder gun to scare the mosquitoes. Alas, indeed he is not! Uncle Wiggily has fallen fast, fast asleep.

"Bzz! Bzz! Bzz!" buzzed the mosquito as they flew nearer and nearer the sleeping soldier rabbit gentleman. They had sharpened their bills on the rough flint-like bark of the swamp trees, and were all ready to bite.

"Ready now! Rooooo down on him!" buzzed the captain, when, all of a sudden, a black shadow flew up from behind the cloud of mosquitoes it flopped itself and a voice cried:

"Ha! Bite my friend Uncle Wiggily Longears, would you? Well, I guess not. Look out for yourselves. I am going to bite you!" and with that the black shadow began darting about as swiftly as an arrow.

"Oh, it's the bat! It's the bat, who can see in the dark, and catch the mosquitoes and other bugs in his mouth!"

as he flew!" cried the captain. "Fly away! Fly away!"

Well, the mosquitoes tried to fly away, but the bat caught a good many of them for all that. And so once again they didn't get Uncle Wiggily, and when the rabbit gentleman, awakened by the cries, learned what he had done, he said:

"Ha! I knew you were good for something my night-flying friend. It was to catch mosquitoes!"

"Yes," answered the bat. "That is it. You spoke well of me and now I have returned the compliment. Then, as it was getting daylight, when he could not see, he went to sleep up in a tree. And if the rubber ball doesn't hide in the umbrella when the overcast hand takes it roller skating in the park I'll tell you next about Uncle Wiggily and Wonderland Alice."

Today's Anniversaries

The conquest and destruction of ancient Troy was accomplished on June 11, 1184, B. C., according to English chroniclers.

Homer has made the most famous record of the fall of the ancient stronghold. According to Greek chronology, Troy was conquered on the 24th Thargelion, which corresponds to our April 24. One June 11, 534 B. C., Servius Tullius, sixth king of Rome, was assassinated by the soldiery, headed by his son-in-law, Tarchon.

On the same day in the year 1258 the great council of reform, called the mad parliament, assembled at Westminster. Other important events that took place on June 11 were:

1294—Roger Bacon, learned monk of the Franciscan order, died, aged 64.

Next to Archimedes he is considered the greatest mechanical genius the world had seen.

1727—George I, King of England, died in his carriage near Osnabrück, Germany.

1776—Congress appointed Thomas Jefferson, John Adams, Benjamin Franklin and Robert R. Livingston a committee to prepare a declaration of independence.

Little Stories of Big Men

Sir H. H. Johnston, Globe-Trotter, Author, Administrator

In the days before the war, and today as well, when anybody in the British Empire wants to know something or other about Africa, he writes or telephones to Sir Harry Hamilton Johnston. Sir Harry knows the Dark Continent and its inhabitants and he has gained his knowledge at first hand, for he has lived in the wilds of Africa both as administrator and as explorer. He has at the same time studied the African negro as probably no other man.

Sir Harry Hamilton Johnston, K. C. B., was born in London, and tomorrow will celebrate his fifty-ninth birthday. Like all other Englishmen he is doing his bit by being a member of the important committees working to bring victory to the Allies. He was educated at King's College and the Royal Academy of Arts. In his earlier years he gave great promise of becoming a great painter but the wanderlust overcame him and he abandoned England and civilization for a life that has been full of travelling through the interior and along the coast of northern Africa and in 1882 explored Portuguese West Africa and the Congo river, reaching many places where white men had never been before. His career as a British official began in 1885 when he was appointed vice-consul in the Cameroons and later in the Niger. Among the best known of these are Mozambique. In 1889 he headed the expedition to Lakes Nyassa and Tanganyika; from 1897 to 1899 he was consul-general at Tunis and in the latter year became commander-in-chief of the Uganda Protectorate and adjoining territories. From that time on Sir Harry devoted himself chiefly to the writing of books on Africa.

Among the best known of these are "River Congo," "British Central Africa," "Life of Livingstone," "A History of the Colonization of Africa by Allen Gardiner," and many others. Sir Harry is a member of the Royal Geographical Society and an honorary member of most of the learned and scientific societies of the various nations of Europe and America. At the outbreak of the war Sir Harry immediately offered his services to the British government and since that time has rendered many important services in connection with the administrative work of the war.

"I hope the mosquitoes will not bother me tonight," said the bunny rabbit gentleman to himself. "They have made trouble enough for me."

So he marched up and down, like a soldier, for this was war time, and he listened for mosquitoes.
